

# Wisconsin holds agriculture close.

## FARM EDUCATION THRIVES HERE... & SO WILL YOU.

Discovery Center is the agri-tourism destination of the Midwest. Explore our Land O' Lakes birthing barn, 10,000 square feet of interactive exhibits, and even take a bus tour of a local farm.

Adults make a connection with the origins of their food and the modern technology that keeps production efficient and food safe. Learn how Wisconsin's farmers work to care for our natural resources.

At Farm Wisconsin Discovery Center we are dedicated to spreading the word and furthering agriculture education principles throughout the state of Wisconsin and beyond.

## ARE YOU WISCONSIN?

Group Tour Rates, we have something for everyone.

**BIRTHING BARN** The Land O'Lakes Birthing Barn is open from 10AM to 4PM daily and provides visitors with the chance to view a cow giving birth in a clean and quiet environment. We ask all our viewers to "Shhhh. . ." as our cows are in labor, delivery, and after birth. Visitors will learn how the farmer cares for the cow and calf to ensure they are happy and healthy.

**INTERACTIVE EXHIBITS** Explore the interactive exhibits to learn how science and technology have made food production and processing more efficient. Discover the unique products made on farms across Wisconsin and the steps Wisconsin's farmers take to protect our natural resources.

We're making *mooves* on farm education.

**FARM TOURS** See the Grotegut Dairy Farm first-hand and find out what sustainable practices are used and how technology and hard work make the operation successful. A minibus takes visitors to the farm where an educational video guides the half-hour tour. While at the farm, the bus drives through a freestall barn that houses over 2,700 dairy cows!

**GROUP TOURS** We proudly offer groups the opportunity to connect to the miracle of farming. We welcome groups of all sizes! Exhibits are designed for all ages with a combination of video, written, hands-on, and visual exhibits to engage all types of learners.

*book your group today.*
